

WANT TO GROW YOUR OWN ?

We are a small allotment site in Sale Moor. After acquiring a portable unit, we have successfully obtained lottery funding to convert it into a learning facility available for use by the local community.

We aim to promote sustainability and spread the message of the benefits of growing your own food.

We will soon be running classes for the unemployed, local schools and community groups.

If you live in the locality of Sale Moor and would be interested in getting involved please contact us
